

ENERGY CONSERVATION: it just makes **GOOD** *SENSE!*

FACILITY MAINTENANCE STAFF play a big part in achieving energy savings by:

- Ensuring all heating and cooling equipment is operating at peak efficiency
- Installing energy-saving LED lighting as part of maintenance program
- Subscribing to ENERGY STAR® best practices
- Adjusting thermostats for seasonal changes
- Repairing steam trap leaks, replacing malfunctioning steam traps

We all have a part to play in reducing energy use. Contact your Facility Manager to learn more or report energy waste.
