

INTERNATIONAL EARTH DAY

ENVIRONMENTAL STEWARDSHIP

We all have a part to play in a healthy environment

Achieving positive clinical outcomes means starting with a safe, welcoming, and comfortable health care environment.

- Protecting the health and welfare of our patients
- Nurturing this facility's good corporate citizenship and community involvement
- Maximizing patient care delivery dollars through sound environmental practices

Your personal commitment as a health care professional involves:

1. Using designated bins for all recyclables
2. Carefully segregating Bio-medical and general waste
3. Practicing responsible waste reduction at home and at work

Environmental Services leading the way to environmental sustainability, improved regulatory compliance, and improved patient care and healing outcomes.

For tips on how you can think GREEN at home and on the job please contact your Green Team at thegreenteam@aramark.ca

The Green Team
Our Facility • Our Community • Our World

It's all connected.
